# CARATTERISTICHE DI PRODOTTO

## FEATURES

---

### SMALTO IDROREPELENTE

L'idrorepellenza degli smalti Ceramica Dolomite li rende facili da pulire, evitando la formazione e il deposito di calcare e sporco.

### ***WATER-REPELLENT GLAZE***

*Ceramica Dolomite enamels are water repellent, making them easy to clean and preventing dirt and limescale from depositing and building up.*

---

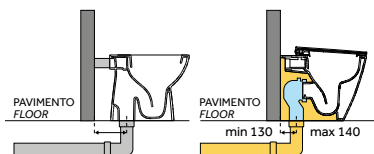

### ACQUA FALL

Il sistema rimless, rispetto ai tradizionali vasi con brida chiusa, garantisce una pulizia più accurata (oltre il 90% della superficie) anche con uno scarico d'acqua parziale e quindi una migliore igiene, assenza di schizzi ed una superiore silenziosità.

*Compared to traditional bowls, the rimless system guarantees a better cleaning (over 90% of the surface) even when water is only partially drained, better hygiene, no splashes and quieter spaces.*

---

### SCARICO TRASLATO

Lo scarico traslato è una caratteristica specifica dei vasi back to wall che permette l'alloggiamento di una curva tecnica finalizzata ad installare il vaso anche in presenza di un preesistente scarico a terra, tipico degli impianti del passato.

### ***SHIFTED OUTLET***

*A specific feature of back to wall bowl is the position of the drain. It allows you to use a bowl connector, meaning you can install the bowl even where there is already a floor drain, as in older installations.*

---

### SGANCIO RAPIDO DEL SEDILE

Caratteristica di tutti i nuovi sedili a chiusura rallentata, permette di estrarre facilmente il sedile dal suo alloggiamento, facilitando la completa pulizia delle superfici.

### ***QUICK-RELEASE SEAT***

*It's on all the new, soft-close seats: the seat is quick and simple to take off, making it easy to clean all surfaces.*

---

### FISSAGGI NASCOSTI: PULIZIA DI FORMA E DI SOSTANZA

Oltre ad esaltare il design delle forme, permettono di installare correttamente il sanitario, semplificando anche il lavoro di pulizia.

### ***HIDDEN FIXTURES: FOR CLEAN LINES AND A CLEAN PRODUCT***

*As well as giving the products a sleek design, they make the sanitary ware easy to install correctly and also simplify cleaning.*
