

Architectura

Fits any plan

Architectura is the versatile system solution for contract business. Tailored to the needs of architects and planners, it combines puristic design with innovative functionality and sets standards for hygiene and efficiency. The new edition of the complete bathroom collection offers an even wider range of solutions. Discover the new design and pioneering functions of the new Architectura bathroom collection for yourself.

Design

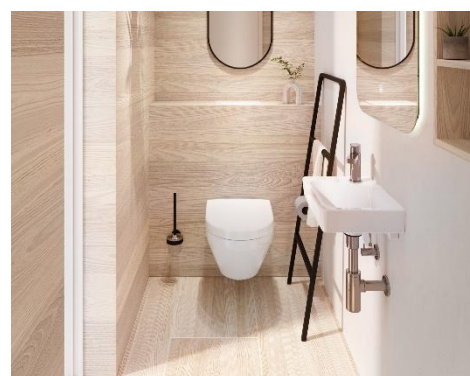

- + Consistent, striking contours and shapes feature in washbasins, toilets, bidet, baths and taps

Range

- + New TwistFlush[e³] wall-mounted toilets (4 versions) and coordinating bidet with completely concealed attachment system
- + Smart ViFix toilet attachment system
- + Comprehensive range of washbasins in 7 sizes, **for the first time each with a coordinating base unit**
- + Units in a choice of 5 best-selling colours
- + 4 acrylic built-in baths and 6 monolith back-to-wall baths
- + Coordinating Architectura MetalRim acrylic shower trays
- + **Top Together:** Architectura and Architectura Square taps in best-selling finishes

Functions and features

- + Innovation highlight at an attractive price: the new TwistFlush[e³] vortex flush for more flushing power with reduced water consumption for a sustainable toilet solution
- + **Cleaning time reduced by 50%***
- + **Excellent flushing performance confirmed in the plastic ball test: the requirements of the European flushing standard EN997 were exceeded by more than a factor of 10** – without splashes!**
- + Wall-mounted toilets can be installed quickly and easily by one person thanks to ViFix
- + **Maximum hygiene** with CeramicPlus and AntiBac
- + AquaSmart limits the flow of water from the taps to a maximum of 5 litres/min. with no loss of performance
- + Bath with water-saving inner depth of 415 mm
- + All furniture with SoftClosing function

* in comparison with a Villeroy & Boch toilet with a rim
** confirmed by the wfk Institut für Angewandte Forschung GmbH

Architectura

A perfectly coordinating washing area

The wide selection of washbasins in the Architectura collection are perfect for individual bathroom planning and together with the bathroom furniture and taps provide solutions for the complete washing area.

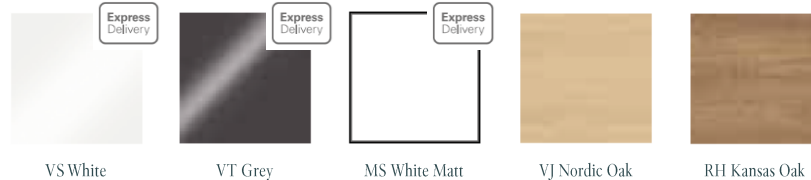

Modern washbasins with flexible options

- + Varied design options thanks to different sizes (from 360 to 1,000 mm) and installation methods: wall-mounted, with a matching vanity unit or as a surface-mounted washbasin for selected sizes
- + All models are optionally available with the CeramicPlus surface finish and selected sizes can be supplied with AntiBac
- + Matrix washbasins as before in 3 installation versions: surface-mounted, built-in or undercounter

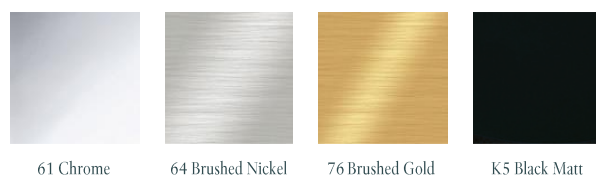

New bathroom furniture for harmonious design of the entire washing area

- + Vanity washbasins with varied storage solutions
- + Versions with doors, drawers or open shelves for different space scenarios – can be combined with attractive coordinating furniture

Tailored taps with clever features

- + Top Together: Architectura Square in the best-selling finishes and Architectura in the colour of Chrome

Architectura

New toilets and bidet solutions at an attractive price

The new advanced TwistFlush[e³] vortex flush technology integrated in the toilets impresses with an attractive price, sparing water consumption and strong flushing performance.

Design

- + Puristic design with clever functionality
- + Smooth bowl architecture perfectly coordinating with the new vortex flush technology: **completely rimless**
- + An integrated channel guides the water through the bowl without splashing

Range

- + TwistFlush[e³] is integrated in **4 new rimless Architectura wall-mounted toilets**:
 - D-Shape Standard and Compact with open sides
 - D-Shape Standard with closed sides
 - Square model with open sides
- + New wall-mounted bidet with concealed attachment system and coordinating Architectura and Architectura Square bidet tap
- + An additional wrap-over seat in a modern shape to meet individual design requirements (optionally with SoftClosing and QuickRelease)

Functions and features

- + Revolutionary TwistFlush[e³] vortex flush technology at an attractive price for powerful flushing performance with sparing water consumption of just 3/4.5 litres per flush
- + Quick and easy installation of the new toilet with concealed attachment through the holes in the toilet seat thanks to ViFix and even distribution of weight on the back wall of the toilet
- + Maximum hygiene with optional CeramicPlus and AntiBac surface finishes

Architectura

Wellness package in a wide range of options

The new baths feature the same geometric shape as the washbasins and together with the coordinating taps add the finishing touch to the complete bathroom – as a built-in or back-to-wall bath.

Baths with slim edges and maximum comfort

- + New modern look – perfectly coordinating with the washbasins in the collection
- + Perfect solutions for every space scenario: built-in and rear-wall baths in best-selling sizes, for the first time including back-to-wall baths in all versions
- + Maximum seating comfort: two backrests and central water outlet
- + Resource-saving: water-saving inner depth of 415 mm
- + All sizes available in white, optionally with a whirlpool function
- + Ideal addition: Architectura MetalRim shower tray made from high-quality acrylic in an ultra-flat rimless look – available in 3 installation versions
- + Shower tray including water outlet cover available in the shades of Stone White, White Alpin, Grey and Anthracite

Tailored taps with clever features

- + Top Together: Together with the showers and baths, the taps create a perfect design combination
- + Architectura Square available in the finishes of Chrome, Brushed Nickel, Brushed Gold and Black Matt
- + EasyClean allows limescale to be easily wiped off
- + AirPlus for a pleasant flow of water by adding air – even with sparing use of water
- + SmartPressure for a consistent water flow even in the event of variations in pressure
- + Cover ring for secure installation on uneven surfaces
