

O.NOVO

Surprisingly different

O.novo offers the full spectrum of modern bathroom design at a surprisingly affordable price. Pleasantly restrained in design, the beautifully shaped washbasins and wash-hand basins, classic shower trays and bathtubs as well as water-saving WCs can be combined as desired to create the bathroom of your dreams, thus setting no limits to your creativity. In addition to the O.novo collection, Villeroy & Boch also offers a solution for barrier-free bathroom design with ViCare. The success story is now complemented by the fittings series of the same name and the innovative TwistFlush[e³] technology.

Product Variety

- + The diversity of the large product family enables bathroom design that meets the most diverse requirements
- + The range extends from beautifully shaped washbasins in a new oval design or square shape to water-saving toilets, urinals and bidets through to classic shower trays and bathtubs
- + New TwistFlush[e³] wall-hung toilets (2 variants) in a purist design and new toilet seat with a slimline look
- + Top Together: the fittings series of the same name goes perfectly with the ceramic

Design

- + Clarity and understated elegance
- + The collection combines authenticity and timeless design that fits into any bathroom

Functions and properties

- + Ceramic with a non-porous, sealed surface that is easy to clean and meets the highest hygiene standards
- + Perfect hygiene and easy cleaning of WCs thanks to rimless TwistFlush[e³] technology
- + Cleaning time reduced by -50%
- + Selected models also optionally available with CeramicPlus and AntiBac

Fittings

- + Easy cleaning and limescale removal with one finger
- + Pleasant jet strength thanks to the addition of air - even when water is used sparingly
- + Environmentally friendly water limitation to a maximum of 5 l/min - without loss of performance
- + Constant water flow even with pressure fluctuations
- + High-quality components from European market leaders
