Agata E-Flow

D 70x11 — P 7

15 TOWEL WARMER · 2 ELECTRIC PARTS · РГ · АГ 92 · CE

Code	Height H (mm)	Length L (mm)	Width (mm)	N. flat tubes	Electric towel warmer Power W	Fan heater Power W	Weight (kg)
white or coloured without plug							
OPDRTRx521160S5	1203	600	130	12	**500**	1000	20,5
OPDRTRx521460S7	1528	600	130	15	**700**	1000	26,5
OPDRTRx521760S1	1852	600	130	18	**1000**	1000	31,5

x = 0 : white / x = 9 : coloured / x = 3 : anthracite

The electric output is equal to the thermal output at operating mode.

Features

Technical characteristics

— Flat tubes dimension 70x11 mm
— Round collectors 38 mm
— Pipes distance 7 mm
— Mains electricity supply: 230 V AC, 50Hz
— Class 2, IP 24

Standard equipment

— Fan, 1000W
— Remote control
— Kit of 4 brackets

Electric installation

— The radiator must be installed outside zone 1 (bathroom)
— The switch/electronic control must be in zone 3 (bathroom)
— For safety reasons, the radiator must not be installed beneath a mains socket
— Turning a towel warmer by 180° is not possible
— Every towel warmer has to be installed frontally, and the thermostat has to lie on the lower-right position

Special version

— Agata Linea hot water: available
— Chromed version: not available
— Coloured version: available

Functions

Agata E- Flow has the following operating mode:
— Electric towel warmer
— Fan
— Electric towel warmer and fan

The towel warmer has five functions:
— **Comfort mode:** the chosen temperature is regulated by the remote control
— **Night mode:** the electric towel warmer is regulated at 2°C below comfort temperature
— **Pilot wire mode:** the electric towel warmer can be adjusted remotely through a central electric radiator regulation system (mode available only in homes fitted with such a system)
— **Timer mode:** using the remote control, the on and off times of the towel warmer can be programmed hour by hour for the seven days of the week
— **Two hour override function:** when this function is activated, the radiator operates at maximum power for two hours to heat the room rapidly.
— **Freeze prevention function:** when the dial is on minimum, the towel warmer comes on automatically when room temperature drops below 7°C.
